POSSUM NIGHT STALK

13 DECEMBER 2020

Help us undertake surveys for western ringtail possums along Eaton Foreshore!

Join LCC ecologists for a stroll along Eaton Foreshore at dusk when all the nocturnal animals are just starting their day. Learn about the critically endangered western ringtail possums who call this area home and help us to record their numbers using a citizen science reporting tool.

This event forms part of our western ringtail possum conservation program, supported by the South West Catchments Council through the Australian Government's National Landcare Program.

**National
Landcare
Program**

When: 7.15–8.30pm
Sunday 13th
December 2020
