

Nature based Future Farm Systems

Experience the benefits of incorporating nature based values and practices into future farming systems.

This is a 'drive- walk' tour of the property that will showcase practices to support soil health, hydration management [dry and wet], beneficial bugs and biology, carbon farming, trees

all integrated under a natural capital management system

Learn and exchange conversation with local expert fauna and flora specialist's, agroecological farmers, those passionate for ecology.

Morning, Lunch and Afternoon Tea provided.

Registrations essential.
